

How to Save Money By Spending

Brooms Made In El Paso

Making Clean Sweep of the Southwest

Among the scores of successful manufacturing plants now being operated in and about El Paso, none has been developed more rapidly or along more substantial lines than that of the Osaple Broom Co., at 224-226 Overland street. Although the Osaple company was organized only about six months ago, Osaple brooms are now being sold by jobbers in

every part of Arizona, New Mexico and West Texas; and housekeepers throughout this territory will bear enthusiastic testimony to the fact that better brooms are not made anywhere in the country.

The Osaple Broom Co. was organized last November by Charles Edgerton, George W. Gair, and Arthur N. Flores. These gentlemen had recognized the fact that the broom made in the neighboring state of New Mexico has no superior; and they felt sure that this easy access to a superior raw material and the exceptional advantages enjoyed by El Paso as a distributing center must prove a winning combination. The results have abundantly proved the correctness of their judgment. From a very modest establishment with a capacity of about 25 dozen brooms a day, production has been increased until now jobbers all over the El Paso southwest are kept constantly supplied.

The Osaple broom factory is a success because merchants everywhere recognize Osaple brooms are exceptional value—value which brings "repeat orders" from their customers. In a word, Osaple brooms are just one more item in the long list of those which are winning the right kind of reputation for goods "Made in El Paso."

It's easy! Just learn the names of the products advertised on this page and then, when you need anything of the kind, simply refuse to accept any substitute. Every time you spend money for El Paso made goods you are saving money for El Paso—and indirectly for your self. Remember this and always insist upon goods

You Are Going to Build

Your building will have floors and you will pride yourself in having them tidy, clean and sanitary. Floors containing crevices between the boards, joints in the cement and tile, or laps in the linoleum for dirt and dust to gather in can not be made tidy, clean and sanitary. **ACME SANITARY FLOORING** is laid in one seamless, jointless, crackless plane. Floors and baseboards laid in one piece with round corners and curved covers. Acme Floors are seamless, will take a much higher degree of polish than any class of hardwood and the cost is little more.

PERFECTION POULTRY FOODS

have become recognized by successful poultry raisers as the standard for egg and flesh production. They are composed of choice grains and seeds, carefully selected as regards purity, cleanliness, sweetness and freshness, and are mixed with such care that each mixture is a scientifically balanced ration for the purpose for which it is intended. They stand pre-eminent in the realm of poultry feeds today.
